<p>Curriculum aims Key Stage 3</p>	<p>REP is an approach to Religious Education in which we learn both about and from beliefs, cultures and traditions. The KS3 curriculum reflects that the main religious tradition of the UK is Christianity, but also takes into account the teachings and practices of other main religions in the UK such as Islam, Hinduism, Buddhism, Judaism and Sikhism. The curriculum intends to explore beliefs, spirituality and reflect on their importance. Students develop skills of understanding and evaluation as they look at ethical decision making and philosophical issues. It allows students to explore, to reflect on and to respond to human experience, drawing on their study of religious beliefs, teachings and practices. The subject allows them to analyse and reflect on the bigger questions which can affect our society and the world we live in and develop the ability to form reasoned and informed judgments and opinions on religious and ethical issues.</p>
