Seneca Learning is the U.K.'s most popular revision app for middle and high school students with more than 2.5 million users in England alone.

What is Seneca?

An online platform that guides students to consolidate and learn vital knowledge.

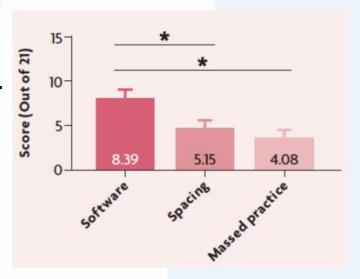

How does Seneca work?

Four learning strategies: retrieval, interleaving, spacing and visual cues.

Adaptative – students read/watch some revision information and then answer questions about it. If a student gets a question wrong, it will show the content again but in a different format.

Why Seneca?

Smart learning algorithms are proven to make you remember topics better.

We cannot express how important it is that all students are involved in enrichment in some capacity

We continue to work towards every student taking advantage of plentiful enrichment opportunities. Our school clubs provision (lunch and after school) are integral to this.

These are fantastic opportunities and enable students to:

- develop new skills, gain experiences and challenge themselves
- further participate in lots of different areas of interest and strength
- socialise and meet with others across different year groups who have similar interests
- develop life skills by working collaboratively and engaging in problem solving and presenting
