September 2022

Dear Parents/Carers

## Anglian Learning Intranet System (ALIS)

I am very pleased to introduce you to an online platform for parents/carers called Anglian Learning Intranet System (ALIS). This platform will allow you to see information about your child joining us in Year 7.

ALIS will allow you to access details on your child's attendance, their timetable and much more, provided through a mobile-friendly portal. This is a platform developed by a team within the Anglian Learning Trust and we are hoping to introduce further developments over the coming months. Some examples of what the ALIS platform looks like can be seen on the attachment.

On **Monday 12 September** you will receive an email from Anglian Learning containing the subject line '**ALIS Account Activation**'. You will then be led through a simple process to activate your account and create a password. Please check your spam folder if you do not receive this by the end of the day. The activation process will take no more than 10 minutes. There is a user guide attached to this email which provides further details about how to activate your account and login to ALIS moving forwards. If you experience any difficulties with this process, please contact [enquiries@bottishamvc.org](mailto:enquiries@bottishamvc.org) for assistance.

Later this term, we will also be sharing some instructions on how to use Class Charts, which is a separate system where parents can monitor rewards and behaviour. There is an app that can be downloaded for Apple and Android devices which allows parents to see in real-time, reward and behaviour points. Students will also be given access, so they are aware of how they are progressing.

We hope that you find the information in ALIS useful and agree that this insight for parents/carers allows for strong relationships between home and school.

Yours faithfully

**Mr Dominic Fullman**  
Deputy Principal
