September 2023

Dear Parent/Carer

School Systems

Summary of Actions	Deadline
For Information Purposes	N/A

With the new term just starting, we wanted to give an oversight of the systems in place to support students in their learning and allow parents and carers an insight to their child's progress.

Academic Progress and Homework

Many parents will be familiar with ALIS, our system to monitor academic progress, student timetables, Google Classroom feeds and canteen balances and spending. ALIS can be accessed at <https://parents.anglianlearning.org/>

Attendance, Homework, Rewards and Behaviour

Additionally, we have a separate system that allows parents to track daily their child's rewards, homework, and behaviour entries. It is also possible on this system to report an absence. Parents and carers will receive an email with their child's/children's access codes, enabling an account to be created at <https://www.classcharts.com/parent/login>. We recommend downloading the ClassCharts smartphone app, which allows parents and carers real-time monitoring of their child's day.

Food and trips payments

WisePay is our online platform for canteen and trips payments, and parent accounts can be accessed at [WisePay - Bottisham Village College](#)

Online Learning Platform

Seneca provides guided learning activities to complement lesson content. Parent accounts can be accessed at <https://app.senecalearning.com/sign-up-parent>. Seneca will be launched to Year 7 students and parents in the coming weeks.

Booking Enrichment Activities

School Cloud allows students to sign up for lunchtime and after-school clubs and activities and can be accessed at <https://bottishamvc.parentseveningsystem.co.uk>. Emails to create an account will be sent in the coming days.
