Dear Parent/Carer

Year 10 Maths June Assessment

Summary of Actions	Deadline
For your information	N/A

Following the recent mock exams, Year 10 students are now preparing for another full-length GCSE-style maths exam. This assessment provides a valuable opportunity for students to build on their previous performance and gain an updated picture of their progress.

With the information provided in this letter, we hope you will join us in encouraging your child to develop effective and consistent study habits at home.

When is the assessment?

The assessment is on the week commencing 8 June.

How should students prepare?

We have provided an overview of the key topics that will appear on the exam, along with the corresponding Sparx revision codes. We encourage students to work through these topics gradually over the coming weeks, using a 'little and often' approach to revision.

What extra support is available?

We run revision support sessions for all KS4 students every Monday after school in the canteen. These sessions are well attended by Year 10 students and provide a focused environment for revision. By bringing their revision list and iPad, students can work through the topics for the upcoming mock exams with maths teachers on hand to offer guidance and support.

If you have any questions, please don't hesitate to reach out; we are here to support your child's academic journey in every way we can.

Yours sincerely,

Mr M Lindsay
Head of Maths
