We cannot express how important it is that all students are involved in enrichment in some capacity. We have an extensive range of clubs, activities and master classes being run this term, taking place at lunchtime or after school.

These are fantastic opportunities and enable students to:

- develop new skills, gain experiences, and challenge themselves
- have a space in which to complete homework. All students will have access to the library after school Monday to Thursday. Support will be available to assist students where needed.
- further participate in lots of different areas of interest and strength
- socialise and meet with others across different year groups who have similar interests develop life skills by working collaboratively and engaging in problem solving and presenting
